Upfront is a global south entity, part of the Catalyst Group of organisations, driving significant impactful sustainable solutions, particularly for first mile workers and their ecosystems. We are based and operational in India with a footprint across 15 states of India so far and 11 countries across South and South east Asia . We strive to make wellbeing a reality for first mile workers. We have over 20 years of collective experience strengthening ecosystems on workforce wellbeing, promoting & improving their health, safety, security, living conditions, rights and entitlements; shaping and influencing inclusive workplaces & enabling environments. Through various solutions, methodologies, and evidence, we build, promote, and facilitate long-term intervention models. We work on systems, policies, and behaviors in order to increase scale, impact, and sustainability. We are looking for dynamic professionals who have knowledge, expertise, experience in community health, safety and action research.

Number of vacancies : 1

Location : Rajasthan-Jodhpur (Baran, Jhalawar, Ajmer,Jodhpur)

Position : State Project Implementation Specialist -Rajasthan

Role : As the state point person for a Project on Health, Wellness and Safety, particularly women and small holder farmers in Rural Spaces in the Spice Sector focused project, candidate's overall responsibility includes program planning, operations including capacity building, community mobilisation & engagement, outreach, project related surveys / assessments, managing relationships with stakeholders & team members. Project Operations (50%)

1. Establish excellent rapport with key stakeholders and develop a project implementation plan for each district.
2. Develop clear and deep understanding of organisation systems and processes, especially on project management, community engagement process, ethics and practices.
3. Set up and ensure community engagement, mass mobilisation and outreach mechanism in close coordination with sub partners and orient them in detail for effective implementation.
4. Work closely with the program team based at Delhi to discuss the progress, challenges, learnings, and further action plans.
5. Identify the existing programs, champions and women's associations or groups whose work focuses on gender, like skills, financial digital literacy and the specific area of intervention for leveraging them.
6. Liaise with relevant local government offices and other stakeholders, organise stakeholder meetings.
7. Accountable for project results and ensuring the quality of implementation meets predefined standards - both internal and those promised to donors and other stakeholders.

Capacity building (20%)

1. Support in locally adapting capacity-building resources on intervention themes of primary health, financial literacy, safety and other well-being related topics.
2. Develop and implement plans related to capacity building programs for system stakeholders and community gatekeepers in alignment and agreement with the program team at local level.
3. Review and monitor the capacity building sessions for local level change makers like Sakhis and Kudumbashree members on health, wellness and safety in the model intervention sites on women's safety at local level.
4. Handholding and guidance support to sub partners for establishing and activating wellness clubs.
5. Ensure regular quality assurance of outreach sessions.

Data, monitoring and documentation (25%)

1. Conduct monthly reviews, develop and submit monthly updates on project activities and program components.
2. Ensure data collection and collation on project tools for timely monitoring and handhold support quality assurance including assessment.
3. Conduct monitoring and learning exercises as per the agreed framework and system within the project to ensure high quality implementation.
4. Develop good quality reports (quantitative and qualitative) for donors in prescribed reporting formats; as per the project requirements; both.
5. Assess the intended sustainability of the results and the intervention in advancing health, wellness and safety among women workers and small-scale farmers (strong focus)
6. Document lessons learned, good practices and innovations, success stories, and challenges.

Other roles (5%)

1. Believe in achieving outcomes and be flexible in timings as per the project's activity calendar.
2. Identify strategies for replication and up-scaling of the identified best practices of the interventions.
3. Explore opportunities for work and collaborations with other stakeholders in order to bring visibility to the project and organisation.
4. Contribute to other related assignments of organisation, as need be.
5. Engage line departments, key authorities at local level, local leaders; establish partnerships and position organization to explore new partnership opportunities.
6. Any other tasks that might be assigned from time to time by organisation.
